Index MARCH—DECEMBER, 1974

Abortion, as moral issue, Sept., 551
Accreditation, definition, Sept., 486
Activities of daily living, training in, after stroke, Dec., 699
Admission note, as part of POR, June, 224
Adolescent, unwed pregnant, as family crisis, March, 57–68
Adrenergic blocking agents, in hypertension, Dec., 687
Aged, effects of institutionalization on, March, 90
  loss in, March, 90–92
Alevolar elastic recoil, of lung, March, 104
American College of Nurse-Midwives, Sept., 464
American Hospital Association, Patient's Bill of Rights statement, Sept., 557
American Nurses' Association
  certification program of, Sept., 485–495
    criteria for, Sept., 491
    meaning of, Sept., 488
    means of implementing, Sept., 489
    significance of, Sept., 494
  Congress for Nursing Practice of, Sept., 489
  Council of State Boards of Nursing, Sept., 510
  political activity of, Sept., 581, 583
  position on mandatory continuing education, Sept., 477
Aminophylline, use in asthmatic attack, March, 201
Amphetamines, use in hyperactivity, Dec., 732
ANA. See *American Nurses' Association.*
Aneurysms, cerebral, Dec., 630
    etiology, Dec., 655
    goals of management, Dec., 658
    incidence, Dec., 656
    nursing care planning in, Dec., 663
    pathophysiology, Dec., 656
    patient assessment in, Dec., 662
    preoperative and postoperative care with, Dec., 655–666
Aneurysms (*Continued*)
  cerebral, prognosis, Dec., 665
    surgical management, Dec., 662
    symptoms, Dec., 657
Angiography, cerebral, Dec., 623–631
    complications, Dec., 630
    contraindications, Dec., 627
    findings of, Dec., 629
    indications, Dec., 626
    postprocedure nursing management, Dec., 630
    technique, Dec., 628
Antepartum period, group intervention during, March, 75
Anticonvulsant therapy for epilepsy, problems with, Dec, 767
Antifibrinolytic agents, use in cerebral aneurysms, Dec., 660
Antihypertensive agents, in cerebral aneurysm, Dec., 660
Anteriogram, cerebral, Dec., 628
Assessment, definitions of, June, 235
  of nursing care, using nursing audit and outcome criteria, June, 331–335
  See also *Outcomes.*
Asthma
  attack, physiologic events during, March, 197
    respiratory pattern in, March, 202
    therapy of, March, 199
  definition, March, 195
  etiology, March, 196
  extrinsic, March, 196
  incidence, March, 195
  intrinsic, March, 196
  nursing care in, March, 195–207
  surgery in patient with, March, 206
Audit, nursing, patient care outcome criteria and, June, 331–335
    value of POR for, June, 226
Autonomic dysreflexia, in spinal cord injury, Dec., 717–725
  medical management, Dec., 721
  nursing management, Dec., 721
  pathophysiology, Dec., 718
  signs and symptoms, Dec., 720

Battered child, as moral issue, Sept., 552
Bennett MA-1 ventilator (illus.), March, 129
Bennett PR-1 ventilator (illus.), March, 128
Bird Mark 7 ventilator (illus.), March, 128
Bladder training after stroke, Dec., 697
Blood gases
  abnormalities in, clinical implications of, March, 107
  during asthmatic attack, March, 198, 200
  normal values, March, 105
Blood pressure, elevated. See *Hypertension.*
  measurement of, Dec., 678, 682
Board of nursing, state, functions and responsibilities, Sept., 508
    legal aspects, Sept., 505–512
Boudreau Report, on nurse practitioner in Canada, Sept., 527
Bowel and bladder training after stroke, Dec., 697
Brain, arteries, of, Dec.. 624
  circulation of, Dec., 623
  ventricles of, Dec., 614
Brain scanning, Dec., 633–640
  agents and equipment for, Dec., 634
  in diagnosis of epilepsy, Dec., 755
  indications for, Dec., 633
  nursing management in, Dec., 638
  procedure for, Dec., 636
  radionuclides for (table), 635
Breathing, retraining patient in, March, 118
  techniques for improving, in chronic pulmonary insufficiency, March, 173
Bronchial asthma, definition, March, 195. See also *Asthma.*
Bronchial hygiene, measures of, March, 116–120
Bronchitis, chronic, pathophysiology of, March, 166
    smoking as cause, March, 169
Bronchodilators, in treatment of chronic airway obstruction, March, 170
  use in asthmatic attack, March, 201

Canada, expanded role of nursing in, Sept., 522–533
Canadian Nurses' Association, and Canadian Medical Association, joint statement re nurse's role, Sept., 527
Carbon dioxide, excess of, causes and treatment, March, 109
  partial pressures of, March, 106
Carcinoma of breast, hypophysectomy for, Dec., 649
Carotid arteries, anatomy, Dec., 624
CCU. See *Coronary care unit.*
Cerebral aneurysms, preoperative and postoperative care with, Dec., 655–666. See also under *Aneurysms.*
Cerebral angiography, Dec., 623–631
Cerebral circulation, Dec., 623
Cerebrospinal fluid
  analysis of, Dec., 601
  circulation of, Dec., 611–621
  colloidal gold test of, Dec., 604
  discoloration of, Dec., 601
  glucose content, Dec., 603
  measurement of dynamics, Dec., 600
  normal, Dec., 601
  obtaining and analyzing, Dec., 593
  obtaining by lumbar puncture, Dec., 595
  obtaining by other than lumbar puncture, Dec., 599
  protein content, Dec., 603
  red blood cell content, Dec., 602
  typical findings in, (table), Dec., 606
  white blood cell content, Dec., 603
Certification
  definition, Sept., 487
  for nurse-midwife, Sept., 464
  program(s), for maternity nurse practitioners, Sept., 461
    of American Nurses' Association, Sept., 485–495
      criteria for, Sept., 491
      means of implementing, Sept., 489
      significance, Sept., 494
    types of, Sept., 487
Charting, problem-oriented, June, 213–302. See also *Problem-oriented record.*
Chest, percussion of, treatment by, March, 120
  trauma to. See *Trauma, thoracic.*
Chest clinic, nurse-directed, March, 147–155
    effectiveness of, March, 154
    guidelines for, March, 151
    problems of, March, 153
Child (children)
  battered, as moral issue, Sept., 552
  fatal illness in, crisis intervention with parents, March, 81–87
  oxygen therapy in, March, 114
  seizures in, Dec., 754
  well, care of, assessment of, June, 367–379
Chronic illness, nurse's role in care for, March, 147
Chronic obstructive pulmonary disease, March, 165. See also *Cold* and *Emphysema.*
Cigarette smoking, as cause of COLD, March, 169

Circle of Willis, anatomy, Dec., 624
Circulation, cerebral, Dec., 623
Cisternal puncture, procedure, Dec., 599
Clinic, for chest diseases, nurse-directed, March, 147–155
Clinical nurse specialist
  in epilepsy, Dec., 761–772
  legalizing practice of, Sept., 463
  role in quality assurance program, June, 312
COLD, establishment of nurse-directed clinic for, March, 150
  rehabilitation program for, March, 148
Collective bargaining, as part of women's movement, Sept., 568
Colloidal gold test of CSF, Dec., 604
Communication, use of POR as means of, June, 229–234
Communication problems of stroke patient, Dec., 697
Community health agency, implementation of POR in, June, 281–287
Community health nursing, legal implications of, Sept., 453–457
Community hospital, use of POR in, June, 247–254
Compliance, lung, March, 104
Congestive heart failure, developing nursing care outcome criteria for, June, 349–358
Consumer, involvement in quality assurance program, June, 356
Contingency orders, for critical care nursing, Sept., 439
Continuing education
  as change agent, Sept., 419
  definition, Sept., 478
  financial support for, Sept., 480
  mandatory, Sept., 475–483
    legal authority for, Sept., 479
  quality of, Sept., 481
COPD, March, 165. See also *COLD* and *Emphysema.*
Coping, defined, March, 5
Coping mechanisms, of nurse in crisis, March, 21
Coronary care unit, implementation of POR in, June, 255–263
  sample flow sheet for problem-oriented approach, June, 240
Cough, effective, importance of, March, 119
    techniques for, March, 170–173
Crisis(es),
  definition, March, 6
  determining factors in, March, 6
  family, due to unwed pregnant adolescent, March, 57–68
  family, prevention of, March, 40
  hospitalization as, March, 37–45
Crisis(es) (*Continued*)
  illness and hospitalization as precipitators of, March, 27
  in hospital staff, March, 41
  in nurse, March, 17–26
    behavior patterns in, March, 18
    intervention for, March, 24
  maturational, March, 7
  phases of, March, 82
  situational, March, 8
  stillbirth as, March, 77–80
  types of, March, 7
Crisis intervention, March, 1–96
  as partnership in problem-solving March, 5–16
  definition, March, 9
  deterrents to, in hospital unit, March, 27–36
  for nurse in crisis, March, 24
  group work in, March, 73
  in obstetrical nursing, March, 69–76
  nurse as deterrent to, March, 32
  nurse's role in, March, 76
  with family, March, 47–56
  with newly institutionalized elderly, March, 89–96
  with parents of child with fatal illness, March, 81–87
Critical care nursing
  contingency orders for, Sept., 439
  definition, Sept., 435
  instrumentation for, Sept., 441
  legal aspects, Sept., 435–444
  nursing practice vs. medical practice in, Sept., 437

Dalton's law of partial pressures, March, 105
Damages, nurse's liability for, Sept., 427. See also *Malpractice.*
Data base, as component of POR, June, 218
Diabetic retinopathy, hypophysectomy for, Dec., 649
Director of nursing service, role in quality assurance program, June, 313
Discharge summary notes, as part of POR, June, 224
Disodium cromoglycate, use in asthma, March, 205
Disorientation, in elderly, March, 91
Distrust, prevalence in modern society, Sept., 553
Diuretics, in hypertension, Dec., 685
Drainage, postural, positions for, March, 119
Drugs, addiction to, and youth, Sept., 552
  antituberculosis (table), March, 159, 160

Dyspnea, in chronic respiratory disease, March, 168

Education
as part of women's movement, Sept., 566
continuing, mandatory, Sept., 475–483. See also *Continuing education.*
for expanded nursing practice, Sept., 415
Ejaculation, effect of spinal cord injury on, Dec., 709
neurophysiology of, Dec., 707
Elderly persons, institutionalized, therapeutic interaction with, March, 89–96
loss in, March, 90–92
Electroencephalography, in diagnosis of epilepsy, Dec., 757
Electronic equipment, for critical care unit, Sept., 441
Emergency nursing, legal implications, Sept., 445–451
Emergency room
legal questions concerning, Sept., 446
problem-oriented record for, June, 227
record keeping in, Sept., 450
Emphysema
adjustments in activities of daily living in, 141
changes in relationships due to, March, 142
coping with, March, 137–145
techniques for, March, 140
factors in adjustment to, March, 143
pathophysiology of, March, 166
progression of, March, 140
role of patient with, March, 139.
See also *Pulmonary insufficiency, chronic.*
Encephalography, complications, Dec., 619
contraindications for, Dec., 615
indications for, Dec., 615
postprocedure nursing management, Dec., 620
preprocedure nursing management, Dec., 616
techniques, Dec., 617
Endotracheal tube, use with ventilator, March, 131
Epilepsy
anticonvulsant therapy, problems with, Dec., 767
causes and terminology of, Dec., 748
center for care in, Dec., 761
classification and diagnosis, Dec., 747–759
clinical specialist role in, Dec., 761–772

Epilepsy (*Continued*)
diagnosis, Dec., 754
electroencephalography, Dec., 757
focal seizures, Dec., 749
generalized seizures, Dec., 752
grand mal seizures, Dec., 753
hereditary myoclonus, Dec., 754
historical background, Dec., 747
motor seizures, Dec., 750
myoclonic seizures, Dec., 753
patient problems in, Dec., 766
psychologic problems with, Dec., 770
sensory seizures, Dec., 751
social problems with, Dec., 769
Erection, penile, neurophysiology of, Dec., 707
Erythrocytes, in CSF, Dec., 602
Ethics, nursing, ICN code for, Sept., 536
standards of, for nursing, Sept., 559
Evaluation, of nursing care. See *Quality assurance* and *Outcomes.*
Exercises, range of motion, for stroke patient, Dec., 696

Family
crisis in, due to unwed pregnant adolescent, March, 57–68
intervention with, March, 47–56
prevention of, March, 40
illness as stress to, March, 38
role in stroke rehabilitation, Dec., 700
Family planning, specialty programs in, Sept., 460
Flow sheets, use in POR, June, 225, 237
general purpose type, June, 260
structured type, June, 260
Forced expiratory volume, definition, March, 102
Foreign nurses, as supplement to rural nursing personnel, Sept., 543
Functional residual capacity, definition, March, 102

Gas exchange, in lung, studies of, March, 104
Gold, colloidal, test of, in CSF, Dec., 604
Good Samaritan legislation, Sept., 446
in regard to school nursing, Sept., 469
Grand mal seizures, Dec., 752
Groups, use of in crisis intervention, March, 73
Guanethidine, use in hypertension, Dec., 689

Headache, after lumbar puncture, Dec., 597
Health behavior
  categories of, June, 359
  historical and social background of, June, 360
  quality assurance and, June, 359–366
Health care, definition, Sept., 396
Health team, characteristics required, Sept., 398
Heart failure, congestive, developing nursing care outcome criteria for, June, 349–358
Hemorrhage, subarachnoid, Dec., 657
Hemothorax, due to chest trauma, March, 186
Hierarchy, hospital, as deterrent to crisis intervention, March, 29
Honesty, as moral issue, Sept., 553
Hospital
  community, use of POR in, June, 247–254
  deterrents to crisis intervention in, March, 27–36
Hospital staff, crisis in, March, 41
Hospitalization, as crisis, March, 27, 37–45
Hydralazine, use in hypertension, Dec., 690
Hydrocephalus
  congenital, Dec., 619
  normal pressure, Dec., 667–676
    definition, Dec., 667
    diagnosis, Dec., 671
    etiology, Dec., 669
    pathogenesis, Dec., 668
    prognosis, Dec., 675
    signs and symptoms, Dec., 669
    treatment, Dec., 673
Hyperactive child, Dec., 727–745
  definition of, Dec., 728
  diagnosis of, Dec., 731
  etiology of, Dec., 729
  medications for treatment, Dec., 731
  nurse's role with, Dec., 740
  prognosis for, Dec., 744
  role of family with, Dec., 734
  role of school with, Dec., 738
  treatment, Dec., 731
Hypercapnia, causes and treatment, March, 109
Hyperpituitarism, Dec., 648
Hypertension, Dec., 677–692
  definitions in, Dec., 678
  drug therapy of, Dec., 681
    adrenergic blocking agents, Dec., 687
    agents used, Dec., 684
    combined, Dec., 683
    diuretics in, Dec., 685
    drug interactions in, Dec., 683
    side effects, Dec., 683, 685
Hypertension (*Continued*)
  incidence of, Dec., 677
  pathophysiology, Dec., 679
Hypogonadism, due to pituitary tumor, Dec., 648
Hypophysectomy
  approaches for, Dec., 650
  clinical care in, Dec., 647–654
  complications, Dec., 653
  discharge planning after, Dec., 653
  endocrinologic considerations, Dec., 652
  indications, Dec., 647
  preoperative care, Dec., 650
Hypoxemia, effects on vital signs, March, 113. See also *Hypoxia.*
  relation to respiratory disorders, March, 108
Hypoxia
  as indication for oxygen therapy, March, 111
  clinical findings in, March, 113
  diagnosis of, March, 113
  mechanisms of, March, 112

Illness, as family stress, March, 38
  as precipitator of crisis, March, 27
  background of attitudes toward, June, 360
Infant, feeding, plan for, assessment criteria, June, 371
  stillborn, as crisis, March, 77–80
    crisis intervention with mother of, March, 71
Institutional licensure, Sept., 406, 479–504
  strengthening current system, Sept., 502
Institutionalization, effects on elderly, March, 90
Insurance, liability, for nurse, Sept., 431

Ohio 560 ventilator (illus.), March, 130
Orgasm, neurophysiology of, Dec., 708
Ostomy patient, urinary collecting device for, June, 383
Outcomes
definition, June, 323
nursing care, as measure of quality assurance, June, 305–315
criteria for, and nursing audit, June, 331–335
in congestive heart failure, June, 349–358
utilization in clinical practice, June, 356
definition, June, 308
demonstration of criteria development, June, 324
developing criteria for, June, 323–330, 337–348
guidelines for developing, June, 317–321
of well child care, formulating criteria for, June, 367
patient health/wellness, criteria for, characteristics, June, 318
formation of, June, 319
Outpost nurse, in Canada, as primary care provider, Sept., 525
Oxygen, partial pressures of, measurement, March, 105
Oxygen therapy, March, 111–116
administration, March, 114
continuous vs. intermittent, March, 115
humidification with, March, 115
hypoxia as indication for, March, 111
in chronic pulmonary insufficiency, March, 177
toxicity due to, March, 115
Oxyhemoglobin dissociation curve, March, 106

Paraplegia, traumatic, effects on sexuality, 703–716
Parent education, outcome criteria for, June, 369
Parents of child with fatal illness, crisis intervention in, March, 81–87
Partial pressure, definition, March, 105
Partisanship toward patient by nurse, March, 19
Partnership, in crisis intervention, model for, March, 11
Patient
communication with, POR as means of, June, 233
Patient (*Continued*)
involvement in quality assurance program, June, 356
teaching, POR as tool in, June, 265–270
Patient's Bill of Rights, and nurse, Sept., 557–562
Pediatric nurse practitioner, dilemma of, Sept., 573–578
use of POR as means of collaboration with other team members, June, 271–279
Pediatrics, ambulatory, use of POR in, June, 275
PEEP, March, 125
Peer review, by nurse practitioner group, June, 311
Pensions
and nursing, Sept., 513–522
basic concepts, Sept., 514
portability concept for, Sept., 517
vesting of, Sept., 520
Percussion of chest, treatment by, March, 120
Petit mal seizures, Dec., 753
pH, as measure of lung function, March, 107
Physician-nurse communication, POR as means of, June, 232
Physician's assistant, Sept., 544
legal relationship to nursing, Sept., 408
Pituitary, hormones of, Dec., 648
tumors of, Dec., 647
Plan, as component of POR, June, 223
patient care, use as outcome criteria, June, 369
Pneumoencephalography, Dec., 617
findings of, Dec., 617
indications, Dec., 615
Pneumothorax, due to chest trauma, March, 185
tension, March, 186
Political action and nursing, Sept., 579–585
POR, June, 213–302. See also *Problem-oriented record.*
Positioning of patient, after stroke, Dec., 695
Postural drainage, positions for, March, 119
Prenatal period, group intervention during, March, 75
Primary health care, provision of, by nurse, in Canada, Sept., 524
Problem list, as component of POR, June, 219
Problem-oriented record, June, 213–302
advantages of, June, 234
as system for communication, June, 229–234

Problem-oriented record (*Continued*)
as tool in rehabilitation and patient teaching, June, 265–270
components of, June, 217
as used in mental hospital, June, 293
data base, June, 218
plan, June, 223
problem list, June, 219
progress notes, June, 223
community hospital approach to, June, 247–254
concepts of, June, 215–228
educational value for nursing and medical students, June, 273
flow sheets for, June, 225, 237, 260
implementation of, June, 226, 233
in CCU, June, 255–263
in community hospital, June, 247
in mental hospital, June, 291
in public health agency, June, 281–287
in collaboration between PNP and other team members, June, 271–279
in emergency room, June, 227
in psychiatry, June, 289–302
mechanics of, in ambulatory pediatrics, June, 275
nursing care planning and, June, 235–245
questions about, June, 230
relationship to traditional nomenclature (table), June, 236
seven C's of, June, 216
use of summaries in, June, 241
value for audit and computerization, June, 226
Problem-solving, through crisis intervention, March, 5–16
Professional issues in nursing, Sept., 475–585
Progress notes
as component of POR, June, 223
SOAP structure for, June, 224
as part of nursing care planning, June, 237
Protein, in CSF, Dec., 603
PSRO legislation, Sept., 416
Psychiatric nurse, role in crisis intervention in obstetrical nursing, March, 69–76
Psychiatry, use of POR in, June, 289–302
Psychomotor seizures, Dec., 751
Public health agency, implementation of POR in, June, 281–287
Public health nurse, role with hyperactive child, Dec., 741
Public relations aspect of nursing, Sept., 413
implications for change, Sept., 418
Pulmonary disorders, as cause of hypoxia, March, 112
Pulmonary failure
acute, after thoracic trauma, March, 181–194
clinical manifestations, March, 184
principles of care in, March, 190
causes of, March, 183
pathophysiology of, March, 182
Pulmonary function, nurse's role in testing of, March, 101–110
Pulmonary insufficiency
chronic, breathing techniques in, March, 173
essentials of care, March, 168
incidence, March, 165
nursing care in, March, 165–179
oxygen therapy in, March, 177
psychosocial care in, March, 178
removal of secretions in, March, 170
therapy of, March, 167

Quality assurance
consumer involvement in, June, 356
definition, June, 307
for nursing care, June, 302–379
for outcomes of patient care, June, 305–315. See also *Outcomes.*
health behavior in relation to, June, 359–366
legal requirements for, June, 305
need for, June, 305
of well child care, June, 367–379
program for, steps in, developing, June, 314
role of nurse in, June, 310

Radionuclides, for brain scanning (table), Dec., 635
Range of motion exercises, for stroke patient, Dec., 696
RDS, March, 192
Record, problem-oriented, June, 213–302. See also *Problem-oriented record.*
Registration, definition, Sept., 487
Rehabilitation, for stroke patient, Dec., 693–701
early phase, Dec., 694
positioning, Dec., 695
mobilization phase, Dec., 698
POR as tool in, June, 265–270
Renin-angiotensin-aldosterone system, Dec., 679
Reserpine, use in hypertension, Dec., 687
Respirators. See *Ventilators.*
Respiratory acidosis, March, 107
Respiratory alkalosis, March, 107

Respiratory disease, nurse-directed clinic for, March, 147–155
care in March, 97–207
chronic, nurse's role in care for, March, 147
ventilatory defects, findings in, March, 102.
See also under *Pulmonary* and *Lung*.
Respiratory distress syndrome, March, 192
Respiratory nurse specialist, role in directing chest clinic, March, 150
Retinopathy, diabetic, hypophysectomy for, Dec., 649
Retirement benefits for nurses, Sept., 513–522
Ritalin, use for hyperactive child, Dec., 731
Rural nursing practice, legal aspects of, Sept., 541–545
supplementary personnel in, Sept., 543

Sanatorium, tuberculosis, plan of care in, March, 157
School nurse, expanded role for, Sept., 471
responsibilities of, Sept., 466, 470
role with hyperactive child, Dec., 740
School nurse practititioner, Sept., 471
School nursing, Good Samaritan legislation and, Sept., 469
legal aspects, Sept., 467–474
Seizures, classification of, Dec., 749. See also *Epilepsy*.
Self-image of nursing, Sept., 417
Sex discrimination, elimination of, Sept., 563–571.
Sexual dysfunction, due to paraplegia, behavioral manifestations, Dec., 710
Sexual function, neurophysiology of, Dec., 707
normal, in female, Dec., 708
Sexual identity, concept of, Dec., 705
loss of, significance, Dec., 704
Sexuality, effect of spinal cord injury on, Dec., 703
Sick role, acceptance of, March, 137
Smoking, as cause of COLD, March, 169
SOAP approach, for progress notes in POR, June, 224
use in team conferences, June, 238
Spasms, infantile, Dec., 754
Speech problems after stroke, nurse's role, Dec., 697
Spinal cord, anatomy and physiology of, Dec., 593
Spinal cord injury, autonomic dysreflexia in, Dec., 717–725
effects on sexual capacity, Dec., 708
sexual concerns after, Dec., 703–716
nursing implications, Dec., 712
Spinal fluid. See *Cerebrospinal fluid*.
Spirometric tests, March, 101
State Board Test Pool Examination for Registered Nurses, Sept., 511
State boards of nursing, functions and responsibilities, Sept., 508
legal aspects, Sept., 505–512

Steroid drugs, use in cerebral aneurysms, Dec., 661
Stereotyping of patient by nurse, March, 18
Stillbirth, as crisis for mother, March, 77–80
Stoma, patient with, urinary collecting device for, June, 383
Stroke, bowel and bladder training, Dec., 697
need for rehabilitation after, Dec., 693
positioning after, Dec., 695
rehabilitation after, Dec., 693–701
bowel and bladder training, Dec., 697
early phase, Dec., 694
mobilization phase, Dec., 698
need for, Dec., 693
range of motion exercises, Dec., 696
role of family, Dec., 700
training in activities of daily living after, Dec., 699
visual and communication problems after, Dec., 697
Subarachnoid hemorrhage, Dec., 657
Summary, written, as part of POR, June, 241
Surgery, in asthma patients, March, 206

Team, health, POR as means of collaboration among, June, 271–279
Team conferences, SOAP approach to, June, 238
Tension pneumothorax, March, 186
Tests, of lung function, nurse's role in, March, 101–110
Therapeutic interaction with institutionalized elderly persons, March, 89–96
Thiazide diuretics, for hypertension, Dec., 685
Tidal volume, definition, March, 102
Tracheostomy, for patient with ventilator, March, 131

Trauma, thoracic
acute ventilatory failure after, March, 181–194
complications of, March, 192
physiologic measures following, March, 188
Tuberculosis
chemotherapy of, March, 158
drugs for treating (table), March, 159, 160
preventive therapy, March, 161
recent trends in care for, March, 157–164
sanatorium care, March, 157
employee surveillance program, March, 162
patient education, March, 158

Urinary collection device for patients with stomas, June, 383

Ventilators, mechanical
adjustment of patient to, March, 131
alarm systems for, March, 124
capabilities of, March, 126
choice of airway for, March, 131
nursing observations with, March, 130
pressure, cycled, March, 127
pressure wave form modifications by, March, 125
principles of, March, 123–136
setting up, March, 129
time-cycled, March, 128
types of (table), March, 127
use of, March, 123–136
care after, March, 134

Ventilators (*Continued*)
mechanical, volume-cycled, March, 128
weaning patient from, March, 132
Ventilatory failure, acute, after thoracic trauma, March, 181–194
Ventilatory lung defects, findings in, March, 102
Ventricles, of brain, Dec., 614
Ventricular puncture, technique, Dec., 600
Ventriculography, Dec., 617
indications for, Dec., 615
Ventriculovenous shunt, for hydrocephalus, Dec., 673
Vertebral arteries, anatomy, Dec., 624
Vesting, of pensions, Sept., 520
Violence, increase of in modern society, Sept., 550
Vital capacity, definition, March, 101
Vital signs, effects of hypoxemia on, March, 113

Well child care, assessment of, June, 367–379
West Haven VA Hospital, Epilepsy Center of, Dec., 761
Women's movement
collective bargaining as part of, Sept., 568
education as part of, Sept., 566
legislation to support, Sept., 567
nursing and, Sept., 563

Xanthochromia, of spinal fluid, Dec., 602
